Shri Guru Govindsinghji College (B.J.), Malegaon Road, Nanded.

CERTIFICATE COURSE IN ENVIRONMENTAL COMMUNICATION

Aims of the Certificate Course in Environmental Communication

- **Understanding Environmental Communication:**
 - To provide a comprehensive understanding of the role and importance of communication in addressing environmental issues.
 - To familiarize participants with key concepts, terminologies, and theories in environmental communication.
- **Knowledge of Environmental Issues:**
 - To educate participants about major environmental issues, including climate change, biodiversity loss, pollution, and resource management.
 - To explore how these issues impact different communities and ecosystems.
- **Effective Messaging:**
 - To develop skills in crafting clear, persuasive, and impactful environmental messages.
 - To train participants in creating content for various media, including written materials, visual aids, and digital platforms.
- **Media and Communication Strategies:**
 - To teach strategies for using traditional and new media effectively in environmental communication.
 - To equip participants with techniques for media relations, public speaking, and social media engagement.
- **Practical Application:**
 - To provide hands-on experience in designing and implementing environmental communication campaigns.
 - To enable participants to develop, execute, and evaluate communication plans for real-world environmental issues.
- **Advocacy and Public Engagement:**
 - To foster skills in advocacy and public engagement to influence policy and public opinion on environmental matters.
 - To emphasize the importance of community-based communication and grassroots efforts.
- **Ethical Considerations:**
 - To highlight ethical issues related to environmental communication, including accuracy, representation, and the impact of messaging.
 - To encourage responsible and respectful communication practices.
- **Integration with Global Goals:**
 - To connect environmental communication efforts with global initiatives such as the Sustainable Development Goals (SDGs).
 - To understand how local communication strategies can contribute to global environmental objectives.

CERTIFICATE COURSE IN ENVIRONMENTAL COMMUNICATION

Question Paper

Marks : 40

•**Question 1: Discuss the key concepts and theories of environmental communication. How do these concepts and theories apply to addressing contemporary environmental issues such as climate change or pollution?**

Instructions: Provide a detailed explanation of the main concepts and theories in environmental communication. Discuss their relevance and application in addressing specific environmental issues. Include examples to support your explanation.

•**Question 2: Analyze the effectiveness of a recent environmental communication campaign. Evaluate the campaign's strategies, messaging, and media channels used. What were the strengths and weaknesses of the campaign, and what recommendations would you make for improvement?**

Instructions: Choose a recent environmental communication campaign and analyze its components, including strategies, messaging, and media channels. Assess the campaign's impact and provide a critique of its strengths and weaknesses. Offer suggestions for how the campaign could be improved.

•**Question 3: Describe the role of social media in environmental communication. How can social media platforms be used effectively to engage the public and promote environmental awareness? Discuss the potential challenges and solutions associated with using social media for environmental advocacy.**

Instructions: Explain the role and importance of social media in environmental communication. Discuss how different social media platforms can be leveraged for public engagement and environmental awareness. Address potential challenges and propose solutions to overcome them.

•**Question 4: Design an environmental communication campaign for a specific issue (e.g., plastic pollution, deforestation). Outline the objectives, target audience, key messages, and strategies you would use. How would you measure the success of the campaign?**

Instructions: Create a comprehensive plan for an environmental communication campaign addressing a specific issue. Include details about the campaign's objectives, target audience, key messages, and strategies. Describe how you would evaluate the effectiveness of the campaign and measure its success.

CERTIFICATE COURSE IN ENVIRONMENTAL COMMUNICATION

Project Book

Marks: 30

Project Book Topics (30 Marks)

•Developing an Environmental Awareness Campaign

- **Topic:** Create a comprehensive environmental awareness campaign for a specific issue (e.g., waste management, air quality, or renewable energy). The project should include campaign goals, target audience analysis, key messages, and a detailed plan for execution using various media platforms.
- **Requirements:** Campaign proposal, message development, media plan, timeline, and evaluation criteria.

•Case Study Analysis of a Successful Environmental Communication Campaign

- **Topic:** Conduct an in-depth analysis of a successful environmental communication campaign from the past five years. Evaluate the campaign's strategies, effectiveness, and impact. Compare it with other campaigns to identify best practices.
- **Requirements:** Case study report, analysis of campaign strategies, impact assessment, and comparison with other campaigns.

•Creating an Environmental Communication Toolkit for Local Communities

- **Topic:** Develop a toolkit designed to help local communities communicate environmental issues effectively. The toolkit should include guidelines, templates for communication materials, and strategies for community engagement.
- **Requirements:** Toolkit components (guidelines, templates, strategies), user manual, and a plan for community training or workshops.

•Social Media Strategy for Environmental Advocacy

- **Topic:** Design a social media strategy for promoting environmental advocacy on a specific issue. The project should include content creation, platform selection, engagement tactics, and methods for measuring success.
- **Requirements:** Social media strategy plan, sample content, platform analysis, engagement tactics, and evaluation methods.

•Environmental Communication and Policy Advocacy

- **Topic:** Investigate how environmental communication can influence policy-making. Select a recent environmental policy and analyze how communication strategies were used to support or oppose it. Propose recommendations for improving communication strategies for future policy advocacy.

Principal
Shri Guru Govindsinghji College (B.J.)
Malegaon Road, Nanded.

- **Requirements:** Analysis of a policy, review of communication strategies used, recommendations for improvement, and potential impact on policy-making.

• **Designing an Environmental Education Program for Schools**

- **Topic:** Develop an educational program for schools to teach students about environmental issues and encourage proactive behavior. The program should include lesson plans, activities, and resources for teachers and students.
- **Requirements:** Educational program outline, lesson plans, activities, teacher and student resources, and implementation guide.

• **Analyzing the Role of Environmental Journalism in Shaping Public Opinion**

- **Topic:** Examine how environmental journalism has influenced public opinion on a significant environmental issue. Analyze the role of various media outlets and journalists in shaping perceptions and behaviors related to environmental concerns.
- **Requirements:** Analysis of journalistic coverage, impact assessment on public opinion, and a discussion of the role of media in environmental communication.

• **Developing a Local Environmental Communication Strategy**

- **Topic:** Create a communication strategy tailored to a specific local environmental issue (e.g., conservation of a local natural resource). The strategy should address local needs and involve community stakeholders.
- **Requirements:** Communication strategy plan, stakeholder analysis, local issue assessment, and implementation approach.

Shri Guru Govindsinghji College (B.J.), Malegaon Road, Nanded.

CERTIFICATE COURSE IN ENVIRONMENTAL COMMUNICATION

Seminar

Marks: 05

Seminar Topics (5 Marks)

•The Impact of Digital Media on Environmental Communication

- **Overview:** Explore how digital media platforms (e.g., social media, blogs, and podcasts) influence public perception and engagement with environmental issues. Discuss the advantages and challenges of using digital media for environmental communication.
- **Key Points:** Role of digital media, case studies, effectiveness, and challenges.

•Environmental Communication in Crisis Situations

- **Overview:** Analyze how environmental communication strategies are employed during environmental crises, such as natural disasters or pollution events. Discuss best practices and lessons learned from past crises.
- **Key Points:** Case studies of environmental crises, communication strategies, and effectiveness.

•The Role of Environmental NGOs in Advocacy and Communication

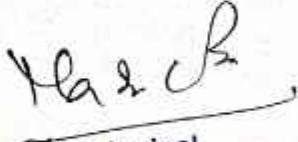

- **Overview:** Examine how non-governmental organizations (NGOs) contribute to environmental advocacy and communication. Discuss their strategies, successes, and challenges in promoting environmental issues.
- **Key Points:** NGO strategies, case studies, impact, and challenges.

•Greenwashing: Identifying and Addressing Misleading Environmental Claims

- **Overview:** Discuss the concept of greenwashing and its impact on public trust and environmental communication. Explore methods for identifying greenwashing and strategies for addressing it effectively.
- **Key Points:** Definition of greenwashing, examples, impact, and counter-strategies.

•The Future of Environmental Communication: Trends and Innovations

- **Overview:** Explore emerging trends and innovations in environmental communication, including new technologies, methods, and approaches. Discuss how these trends could shape the future of environmental advocacy and public engagement.
- **Key Points:** Emerging technologies, innovative communication methods, and future directions.
